

Federal Grantseeking: National Science Foundation (NSF)

MyTraining
Course Code:
FS0160

Thursday, September 26, 2019 | 2:00PM-4:00PM
Friday, September 27, 2019 | 9:30AM-11:30AM

UTSA Main Campus
JPL Assembly Room (JPL 4.04.22)

This session will cover how to successfully compete for funding from the National Science Foundation. By attending this course, you will:

1. Learn what NSF funds, what they don't fund, and new priorities
2. Learn how NSF is organized, and how to determine which program would be interested in funding your research
3. Understand how to talk to an NSF Program Officer
4. Understand how to address NSF's broader impacts requirement
5. Better grasp what NSF reviewers are looking for, and common mistakes to avoid
6. Learn how your proposal will be reviewed, and how to respond to reviews
7. Understand how NSF differs from other funding agencies
