

## GENERATING RESEARCH: RESEARCH ENABLERS

# NSF CAREER SUPPORT - INFORMATION SESSION

**11:00 am - 11:30 am | Tuesday, December 2, 2025**

**VIA ZOOM**

*Presented by: Marissa Mexquitic, Research Program Coordinator, Strategic Research Initiatives, Office for Research and Innovation*

The National Science Foundation CAREER program offers NSF's most prestigious awards in support of early-career faculty who have the potential to serve as academic role models in research and education and to lead advances in the mission of their department or organization. Activities pursued by early-career faculty should build a firm foundation for a lifetime of leadership in integrating education and research.

At UTSA, the NSF CAREER program is part of the Targeted Scholarly Awards initiative, with the Office of Faculty Research Development leading proposal development support for all CAREER PIs. We are excited to invite you to an upcoming brief information session about the NSF CAREER program, where we will review valuable resources and provide guidance to support your proposal development at UTSA. Whether you're new to the program or looking for insights to strengthen your submission, this short informational session is designed to help you navigate the process successfully.

Please email [Scholarly.Awards@utsa.edu](mailto:Scholarly.Awards@utsa.edu) with questions regarding the information session and the NSF CAREER program.
