**VIRTUAL - ZOOM**

Each year NCFDD hosts a summer “Faculty Success Program” – an intensive online program for tenure-track and tenured faculty to develop the skills necessary to increase research and writing productivity while maintaining a healthy work-life balance. This panel session of previous FSP participants from Summer 2025 is open to all faculty interested in applying for the Summer 2026 program. Join us to find out what they learned, the benefits of the program, and the outcomes.
