

Faculty Research Development

Smart Start: Essential Library Resources for New Faculty

11:00 AM to 12:30 PM | Wednesday, September 9, 2026

In-Person: John Peace Library | Assembly Room | 4.04.22

*Presented by: Posie Aagaard, Senior Associate Vice Provost for Scholarly Resources,
UT San Antonio Libraries and Museums*

This session introduces new faculty to the key library services that support success in teaching, research, and career advancement at UT San Antonio. Learn how to partner with subject librarians, access extensive research databases and collections, and integrate library resources into your courses to enhance student learning and engagement. Faculty will discover support for publishing, increasing research visibility, and navigating scholarly impact, as well as opportunities for collaboration through digital scholarship, open education, and community-engaged initiatives.

The workshop also includes a 30-minute meet-and-greet with UT San Antonio subject librarians, providing an opportunity to connect with library experts who support your discipline, discuss your research and teaching needs, and explore potential collaborations.

Whether you are developing new courses, launching research projects, or seeking partners for innovative programs, the libraries are here to help you succeed.
