

Leveraging Data & Technology: Research Analytics and Computing Support Essentials

12:00 PM to 1:00 PM | Tuesday, September 29, 2026

Virtual: ZOOM

*Presented by: Khoi To, Assistant Vice Provost, Institutional Research
Trevor Nash, Ed.D., Learning Service Manager, Research Computing
Support Group*

This workshop introduces new faculty to key institutional tools and services that support data-informed research and advanced computing needs. Participants will learn how to navigate the university's Research Data Portal and access platforms such as Cayuse, dashboards, and Academic Analytics to support proposal development, track productivity, and inform strategic decisions. The session will also highlight research computing resources, including consulting services, technical infrastructure, and opportunities for collaboration with specialized staff. By the end of the workshop, faculty will be equipped to effectively leverage institutional data, analytics, and computing support to strengthen their research programs and enhance scholarly productivity.
