- » Federal and Corporate Relations

CAREER: [The Faculty Early Career Development \(CAREER\) Program](#) is a Foundation-wide activity that offers the National Science Foundation's most prestigious awards in support of early-career faculty who have the potential to serve as academic role models in research and education and to lead advances in the mission of their department or organization. Activities pursued by early-career faculty should build a firm foundation for a lifetime of leadership in integrating education and research. This workshop is designed to familiarize faculty considering applying for CAREER with what NSF expects of awardees, key features of CAREER, and how to assess your competitive fit with the NSF CAREER award.

Please contact [Siobhan Fleming](#) for more information.
