

# INTRODUCTION TO THE LABARCHIVES ELECTRONIC LAB NOTEBOOK

**Friday, September 20, 2024**

**11:00 AM to 1:00 PM**

**John Peace Library | Assembly Room | 4.04.22**

Presented by: **Gloria Yarandi, MS, Enterprise Success Specialist, LabArchives**

The LabArchives Electronic Lab Notebook (ELN) helps researchers manage the results of research efforts, record and document research processes and procedures, and manage digital research data in ways that increase reproducibility, efficiency, collaboration, searchability, and security.

LabArchives and their notebook software interface is securely accessible via the internet from anywhere in the world using a web browser on any device. The University of Texas San Antonio has purchased an enterprise license for LabArchives ELN that allows all UTSA researchers (faculty and students) to utilize LabArchives to manage their research data at no cost.

## **Introduction to the LabArchives Electronic Lab Notebook :**

Join us for this 60-minute session to learn more about the advantages of utilizing the LabArchives Electronic Lab Notebook and how it can easily be integrated into your research workflow. We will cover how you can add and manage your data, notebook access controls, collaboration tools, and export options. Also highlighted will be key integration partners, including GraphPad Prism, SnapGene, REDCap, and Microsoft Office.
